Notice: Eagle Cap’s policy is one of continual improvement and reserves the right to make changes to all features and/or options at our discretion without prior notice and without incurring any obligation. Note: Photos may not be of the current model year or interior color. Please confirm all options and details with your dealer and/or an Eagle Cap representative before ordering or making a final buying decision.
EAGLE CAP CONSTRUCTION

1. GEL-COAT AERODYNAMIC TWO-TONE FIBERGLASS FRONT CAP!
   No other camper is built with these structural components – tougher, stronger, better sealed! This cap is designed to fit perfectly to the contour of our camper providing a tight, perfect fit. You will also note the beautiful two-tone gel-coat finish, adding that high end luxury look, you will not see on any other truck camper!

2. AIRCRAFT QUALITY WELDED ALUMINUM FRAME SUPERSTRUCTURE!
   Best aluminum framing techniques - utilizing 2x2 and 2x4 Aircraft Quality Aluminum framing plus ALP’s exclusive TCC® bonding process creates a second to none structure and also provides you with our exclusive ALP 3-year structural warranty!

3. ALL SEASON EXTERIOR QUAD SEALING PROCESS!
   Four different levels of exterior seals providing the best sealed camper in the industry!
   1. All seams/joints sealed with construction adhesive/sealant.
   2. One-piece fiberglass cap and seams are sealed with 3M Extreme Seal®, the best sealing tape in the industry!
   3. Exterior finish trim is sealed with butyl seal, no putty tape that dries out!
   4. Finish Trim is then silicone sealed.
   Four Seals instead of one... you decide!

4. EC MAX – MAXIMUM 4-SEASON INSULATION!
   Highest R-Values – We use only * Closed Cell Block Foam Insulation, TPO Insulated roof, providing you with R-19 in ceiling / R-22 in the floor / R-13 in the walls. Gas filled thermal pane insulated windows, 1” insulated baggage doors, easy access winterization valves, ducted heat with full basement heat and a 30,000 BTU furnace, all standard, making the Eagle Cap cooler in the summer, warmer in the winter, easier to winterize and providing you the best 4-Season thermal insulated truck camper in the industry! * Think of a coffee cup… 1/8” thick, 160 degree coffee and never hot to the touch, plus no liquid penetration… imagine 28 time that thickness in your roof!
   No One Else Has This Much Insulation… you decide!

5. LAMILUX 4000 GEL-COAT FIBERGLASS EXTERIOR WALLS!
   Lamilux 4000 fiberglass is not only a high gloss beautiful finish but is also a thicker fiberglass providing you with a stronger wall structure than other campers!

6. FRAMELESS – GAS-FILLED THERMAL PANE WINDOWS!
   Eagle Cap is truly built like no other camper and it is only logical that Eagle Cap would have the latest high end luxury “Frameless” windows. Not only are they beautiful but they are actually a true gas-filled thermal pane window meaning they are 4-season insulated and provide you 20% more R-Values per window over a double pane and 40% more R-Values over a single pane used in other brands! Eagle Cap “Built Like None Other”… you decide?

BUILD YOUR OWN CAMPER ON OUR WEBSITE AT - AMLRV.com
Eagle Cap’s 12V ELECTRIC REAR AWNING w/LED Lights... Enjoy the outdoors with Eagle Cap’s (optional) electric rear awning. With just a touch of a button you can open or close your awning, no more need for two people and with the built-in gas props it handles rainy and windy conditions reducing your typical cause of awning damage. Note the patio box awnings also shown here as another popular option available from Eagle Cap.

100% LED Lighting... Eagle Cap gives you 100% LED lighting from the awning to the taillights! LED lighting has 8 to 10 times less power draw allowing you to use less power making your camping enjoyment last longer...

Water Filter System with separate faucet... Clean filtered drinking water no longer a worry with the optional water filter system available on all models.

Eagle Cap 13,500 Low-Profile A/C... See the difference between a std A/C (in the distance) and the Eagle Cap 13,500 (HE high efficiency) Low-Profile A/C in this photo, significantly reducing your exterior height.

12V / USB Charging Center... The world is changing, we have more electronics, gadgets and toys and we have provided a charging center in your camper. We added a Charging Center not just a 12v power outlet, it includes two USB ports for direct USB charging along with a 12v power source.

Eagle Cap Standard Feature - Slam Latches and magnetic catches on all Exterior Compartment doors... Eagle Cap truck campers have “Slam Latches”... it’s name says it all, drop the door and it “slams” shut or you can simply gently press it shut for an easy one handed close. The best part of the new slam latches is the ease of opening, simply lift up the single lever handle with one hand and open your compartment door. NEW for 2018 all exterior compartments now have magnetic door catches to hold them up out of the way! This makes it easier to load and unload leaving one hand open to carry your items with out having to set them down to open the door.

Winegard Digital HD – Concealed Interior Mount TV Antenna... Less holes in the roof and better reception can be a great thing, right? We have as a Standard Feature, our interior/concealed mounted antenna and the best news is it gets dramatically better reception! Best of all, as you can see here, it can be totally mounted behind a wall, concealed and one less item on the roof.

The dinette seating is modular in design, meaning the standard Dream Dinette® sections are designed to be removed, replaced and/or optioned with any of our other industry first and exclusive features like a Sofa Bed, Free Standing Table & Chairs, or our Theater Seating Recliners. All of these features are built to the same dimensions making them completely interchangeable… Only in an Eagle Cap can you have a set of Theater Seating Recliners with dinning/laptop Swing/Away tables (new for 2018) in a single slide truck camper. Want something other than that in your dinette area? Order without the dinette and add what ever aftermarket item you wish, desk, bunk beds you name it! EAGLE CAP’s engineering and innovation shine through…
Eagle Cap’s Luxury Single,

3 - Year Structural Warranty

Eagle Cap Campers provide a 3-year structural warranty.

Appliance warranties vary and are set by the respective manufacturer. Contact ALP or your dealer for complete details.

See “Truck Camper Guide” Page for Matching a Truck to a Camper
This Eagle Cap exclusive was born out of our collaboration with large 5th wheel and motorhome customers/owners looking for those high end luxury amenities. They found them in Eagle Cap. Dinettes like none other!

Eagle Cap features the standard Dream Dinette where you don’t have that annoying table leg in your way, giving you more foot room in your dinette. The best part about this dinette is with the flip of a lever the table simply presses down to make into a bed without having to remove the whole table, to restore it back to a dinette you simply pull the gas propped table up and lock the lever!

The 1165 has unbelievable room in a truck camper Note the peninsula galley with its own secluded work area. This Galley with it’s 8 cu ft Refrigerator allows the chef in you to work un-interrupted in your own secluded Galley/Kitchen...

The Eagle Cap 1160 Double Slide enjoys a large galley with abundant overhead cabinet storage and plenty of counter space. The Stainless Steel Appliances really accent this open concept living, dining and Galley floorplan… This model gives you the largest floor space in a truck camper!

The Eagle Cap 1200 enjoys the largest galley in the industry with abundant storage and even more counter space. Note the 3 burner cooktop with three large drawers below and the 30” stainless steel convection microwave above. When you add the pull-out pantry and the 8 cu ft refrigerator the 1200 Galley is more like an apartment...

Matching a Camper to a Truck

When purchasing a Truck Camper, there are a few important factors to consider:

1. **The payload capacity** – sometimes this rating is posted in the glove box of your truck, if not, another way to determine payload capacity would be to weigh your truck, full of fuel, people and of course the dog, and then subtract that weight from the (GVWR) posted on the door of your truck (see example to the right) and that difference would equal your payload capacity (weight of camper you can carry). Example, your truck weighs 6800lbs and the GVWR on the door reads 9900lbs your payload would be 3100lbs (9900lbs - 6800lbs = 3100lbs).

2. **GVWR (Gross Vehicle Weight Rating)** – is the maximum weight the manufacturer rates their truck to carry, including weight of the truck and all people, cargo, fuel etc.

3. **GAWR (Gross Axle Weight Rating)** – is the maximum rating the manufacturer rates the axles to carry. These ratings are usually posted on the driver’s side doorpost. To determine these ratings on your truck with cargo (camper) weigh your truck with just the front and then just the rear axle on the scales. This will give you your axle weights for your truck with your camper, these weights should fall within the manufacturers axle ratings.

4. **Tire capacity (rating of your tire)** – This is the tiny fine print on the sidewall of your tire, see photo to the right, usually just behind the tire inflation number. This will usually be a direct correlation to the axle ratings and GVWR on new trucks. **This will always be your weak link** in your weight carrying capacity and should always be checked before carrying any load, including a passenger car for that matter. **SAFETY ALERT – Always make certain you choose tires with the proper load capacity to handle whatever load you are carrying with your vehicle!** Another Way to determine Payload is from the Tire sticker on the door post of your truck (right), this sticker is added on newer trucks reflecting tire load or payload rating.

5. **COG (Center of Gravity)** – also known as Center of Balance, is the point that the weight of your camper is balanced, ALP notes the COG on every camper with a large red arrow, this is determined as it is weighed and balanced as it goes out the door. Your camper COG should fall into the “Load Range” of your truck, see your owners manual for this measurement. As you can see in this example, to the right, the COG of this camper easily falls into the load range of this truck. As the owner, it is your responsibility not to exceed the weight or COG specifications of your truck when purchasing a truck camper. Always think safety first before loading a camper on your truck. Please consult your dealer, who can help you select aftermarket items designed to aid in proper use of your truck and camper combination.

**Suspension Enhancements** - Suspension enhancements allow you to manage your load but does not change or add to a truck GVWR. In some areas you can make upgrades to your truck and then have it inspected by a DOT (Department of Transportation) and you may be able to increase your “legal” GVWR, check with your local licensing agency for details in your area.

**Torklift Stable Loads** - We use and recommend this product. Today’s truck manufacturers market trucks to be our everyday driver, thus they want the empty loaded truck to be as smooth a ride as possible. To accomplish this they lower the overload spring (the heavy weight bearing springs) 3” to 4” lower to give that smoother ride when empty. The problem with this is when you add any weight to the truck it appears to be sitting low in the rear or “overloaded” since the vehicle has to drop 3 to 4” before it touches the overload spring. Stable Loads by Torklift simply fill this space so that as soon as you add the load, the weight immediately sets on the overload springs allowing your trucks suspension to do what it was designed to do, carry a load, a camper in this case.

**Air Bags** - We use and recommend air bags also, in the correct application. Some truck manufacturers recommend airbags in all applications and suggest you inflate them 80 to 100 lbs in the bags. **We don’t recommend air bags to be used in this way**, because in too many cases, this will raise your camper up off of the suspension causing you to have a spongier unsafe ride! If you choose air bags we only recommend you inflate them so that you are just touching the overload springs of your truck for the best ride and handling characteristics.
“Your company makes, in my opinion THE BEST TRUCK CAMPER ON THE MARKET TODAY!...we have had many R.V’s & have viewed an abundance of truck campers critically! We’ve hashed over a variety of campers for over 2 years before making our decision, by dissecting them in every way possible...Adventurer products with the storage & drawers galore, accessibility to areas needed, beautiful cabinetry/decór, large baths, large fridge, ext. deck & comfort steps ETC!!! Maury was looking for a camper to fit our short box truck, yet meet all of my criteria too etc!” - Sharon (& Maury)

You guys are doing things right...
“Your campers really stand out from the crowd with all the innovative features, floor plans, and options. King beds, rear kitchens, etc. have drawn us to your brand as well as the construction and warranty. I wish I had a dually so I could get the 1165 model. A kitchen island in a camper, seriously... You guys are doing things right. Thank you again” - Jason

“The videos are great and these campers look like the best that’s on the market.” - Jim

Thanks for all the support and answering my questions.
“Congratulations men very nice camper. Can not wait to get mine. Selling like hotcakes. Thanks for all the support and answering my questions.” - Harley

The tour helped cement our decision to purchase a Eagle Cap 1165
“We are writing to thank you for the great factory tour you gave us late on a Friday afternoon October 3. The tour helped cement our decision to purchase our Eagle Cap 1165. We were impressed with virtually every step of the design and build process. We look forward to using the camper on many adventures.” -Sincerely, Bruce & Barb

You stand out in the world of manufacturers...
“In our search for our Pickup camper we are blessed with God’s guidance in each step of the way. In your statement regarding the enjoyment of traveling and enjoying the wonder of God’s creation we appreciate your “witness” in words. Your campers stand out in all the searching and comparison shopping we have done. Thanks for your company, you stand out in the world of manufacturers, in all areas”
- Ken and Peggy

I was impressed with the info I got off your website!
“I don’t normally answer emails like this but I was impressed with the info I got off your website. I am just starting to look at options for a new/newer RV and I thought your website was super useful.” - Thanks Dan
