

With its lightweight design and extremely durable laminated construction, Fury was designed to give motorsport enthusiasts an easily towed travel trailer with features and equipment that will **take your trip to the next level.**

The Fury lineup includes **a NEW fifth wheel option** along with travel trailers, open and closed garage floorplans ,and multiple sleeping arrangements. Fury's aerodynamic profile and upgraded axles deliver an incredibly smooth tow, and the thoughtful interior design affords an unmatched level of comfort. If you're looking for better performance in every aspect paired with value and versatility... accept no imitations.

Residential Padded Headboard		

**North America's**  
*Favorite* RV Company!

**CUSTOMER SATISFACTION**

**UVW (Unloaded Vehicle Weight)\*** is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. \*Estimated Average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)\*\*** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. \*\* Estimated average based on standard build optional equipment.

**GAWR (Gross Axle Weight Rating)** is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River, Inc., dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. © 2017 Prime Time Manufacturing, a Division of Forest River, Inc., A Berkshire Hathaway Company.
