

Stepping up to
Class A living has
never been easier

Meet the 35U, the latest addition to the Vista® lineup. The fireplace in the living area makes this double-slideout perfect for spending cozy evenings with the family. And like all Vista floorplans, it's designed, engineered, and built to our legendary quality standards, and lets you enjoy the integrated layout of a Class A motorhome at a very advantageous price point. With a long list of standard and available features – including MCD roller shades, LED lighting,

Primera®-covered furnishings, powered patio awning with LED light strip, and a new powered front shade – your Vista is ready to take you practically anywhere in comfort and style. Four slideout-equipped floorplans mean you can select the perfect Vista for your family's size and needs, while the available powered StudioLoft™ bed up front provides added sleeping capacity.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Floorplans feature a wide-body design - over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

Not all items available in combination. See dealer for details.
Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
