At Prime Time, we gave our design team very specific direction when creating Tracer, “Build a lightweight travel trailer without sacrificing style, comfort, or convenience.” We asked them to, “Develop floorplans that were user-friendly and desirable, but still easy-to-tow.” We put a stake in the ground and demanded that, “Tracer have residential features, huge windows, and premium storage capabilities.” We said, “Let’s break new ground and build an ultra-lite trailer that can be towed by a mini van and still be practical and convenient.” There was one rule when we designed the Tracer Ultralite - “No Sacrifices!”
The Tracer Executive represents the pinnacle of ultralite innovation featuring wide open, spacious layouts that are often thousands of pounds lighter than traditional floorplans. The Executive Series offers premium upgrades like solid surface countertops, a 26” LCD television, slam latch baggage doors, and a Universal Docking Station. Of course, great looking, residential styling and durable fabrics are standard features on every Prime Time recreational vehicle. Now you can have all the features and the floorplan of your choice in a lightweight easy-to-tow Tracer Executive.

The 3150 BHD is one of our most popular floorplans for hundreds of reasons. On the inside, the popular Sleep & Play is well designed for family fun during the day and functional, comfortable sleeping at night. The Outdoor Kitchen with innovative Swing Arm Grill ensures that convenience is never out of reach with it’s huge 4 cubic foot refrigerator, easy-to-store 2 burner range, running water, and sink bowl.
With weights starting at only 2,550 pounds, the Tracer Micro offers the best combination of style, function, and light weight available today. A full size awning, spare tire, air conditioner, upgraded dinette, and extra deep slide rooms are only a few examples of why the all new Micro series is the clear choice for mini vans and small cross-over vehicles.

Offered in three popular models, the original Tracer ultralite offers an unbeatable combination of light weights, value, and great looks. Even if you’re on a budget, there will be no need to sacrifice as the Tracer series is standard with designer styling, fantastic storage, huge windows, and upgraded features like an outside kitchen, 32” x 40” Super Sized Shower, and Prime Time's exclusive Grand Dinette ensemble. Our engineers have included smart design and painstaking attention to detail to ensure each of our Tracer floorplans are clearly built with no sacrifices.
### CONSTRUCTION
- Gel Coated Fiberglass Exterior
- ETERNABOND CONSTRUCTION Featuring:
  - Laminated Aluminum Framed Side Walls
  - Laminated Aluminum Framed End Walls
  - Laminated Aluminum Framed Main Floor
- Laminated Aluminum Framed Slideout Walls & Roof
- One Piece Rubber Roof
- Thermal Package Plus
- Enclosed and Heated Underbelly
- Heated Holding Tanks
- Enclosed Dump Valves
- Laminated Aluminum Framed Roof

Prime Time Manufacturing is proud to be recognized as an industry leader in value, reliability, and overall quality by the Recreational Vehicle Dealers Association. This was accomplished by committing ourselves to a “No Sacrifices” attitude in design, construction, testing, and customer service. Check us out - we know you’ll be impressed.

Prime Time strongly encourages our retail customers to purchase from their local dealership whenever possible due to the following factors:

1. Our Dealers are as a rule, independently owned and operated businesses. Outside of those customers they personally sold products to, they are not contractually obligated to perform warranty service on Prime Time products that were purchased elsewhere. Often times, you may be required to return to the point of purchase to satisfy warranty requirements.

2. Although many dealerships will eventually service products not purchased at their place of business, they will usually take care of their own customers first with additional priority given to transient owners who are traveling away from their home dealership.

3. Local purchases allow a customer to establish a relationship with a dealer close to home that offers many benefits:
   - The opportunity for a thorough PDI (Pre Delivery Inspection) and product orientation.
   - Quick and convenient service and warranty scheduling.
   - Access to yearly maintenance and service refresher courses.
   - The ability to get questions answered quickly and conveniently.

4. For our Canadian customers, there are also requirements which must be met to bring an RV purchased out of the country to their home. Although not insurmountable, these requirements may involve such things as additional inspections and certificates, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.

Prime Time’s goal is for all RV Owners to fully enjoy their RV experience. In light of this goal, and considering the advantages of buying local, we encourage you to be thorough when determining what product to purchase and which dealer to purchase it from as both are key to your ultimate satisfaction and the realization of your dreams.
