Why Brave?

- Retro classic Winnebago exterior body styling
- Bold retro interior styling
- Powered StudioLoft™ beds
- LED lighting
- Innovative sliding dash Rearview Monitor/Rand McNally RV GPS
- MCD blackout roller shades
- Powered patio awning
The ’Brow is Back!

In the late ’60s and ’70s, there was no mistaking a Winnebago motorhome. The bold Flying W and iconic “eyebrow” designs were cutting paths to fun and adventure from coast to coast. It was the coach that made America fall in love with motorhomes. Well, it’s time to fall in love again. The new Brave™ breathes new life into the legendary design, giving you the opportunity to relive your childhood memories with the next generation of motorhome enthusiasts. Beyond its stylistic appearance, the new Brave is loaded with today’s best features and versatile floorplans ideal for weekend getaways or extended trips. While you won’t find one with the $4,000 price tag of the original, it is priced to fit within a growing family’s budget. Stand out. Be brave. The all-new Brave.
Best in Class

See how Winnebago takes motorhome design and function to the next level, and why we’ve earned the right to be called the Most Recognized Name in Motorhomes.

Click on this icon throughout the brochure to link to more information on the web.

Adjust your preferred light and privacy settings with the MCD Blackout Roller Shades.

The Flex Sofa/Bed in the 26A can flip tight against the wall for additional floor space. A powered table can even flip up with the sofa in this position to provide a work or serving surface.

The Passenger Workstation is the perfect place to plan the next leg of your trip.

Turn your cab into a second bedroom with the convenient StudioLoft™ that drops down from the cab ceiling for another sleeping space.

Adjust your preferred light and privacy settings with the MCD Blackout Roller Shades.

Tie Down Anchors under the Flex Sofa/Bed provide extra storage flexibility and hold down your extra cargo while traveling.

A Rearview Monitor System with Rand McNally GPS slides side-to-side for easy access for driver and passenger.

WinnebagInd.com
The fun begins when you select an unforgettable ’60s-inspired interior with Cherry Cola or Cream Soda wood choices. Never fear; while the Brave is a throwback in spirit, it is forward-thinking in execution. You won’t find any shag carpet, but you will find easy-to-clean vinyl floor covering throughout the coach and a vinyl-clad ceiling. With swiveling cab seats and a removable pedestal table, you can easily set up for game night or simply have more space to lounge. You’ll appreciate the easy-slide cabinet doors that make it easier to access your games and supplies with panels that slide open rather than flip up and down.
The galley is a true feast for the eyes, with retro styling paired with all the modern amenities that make today’s motorhomes so popular. Cabinet doors with frosted panel inserts, waterfall laminate countertop and pull-out spring neck galley faucet offer a dash of contemporary styling that completes the look. Family meals are more fun in the U-shaped dinette found in the 27B and a removable pedestal table in the 26A and 31C complete your dining options.
While you may have fond memories of rolling out the sleeping bag on the floor of your parents’ Winnebago, today’s travelers demand more comfortable accommodations. That’s why you’ll find a queen bed in the 26A that converts to a single bed with a nightstand and a powered StudioLoft bunk bed. An additional StudioLoft bed in the front of the coach and, depending on which floorplan you choose, a sofa/bed or a dinette easily convert into beds for even more sleeping options.
Here’s something you didn’t find in 1971: a Rand McNally GPS navigation system with Rearview Monitor. And talk about innovative; the monitor can slide directly in front of the passenger seat so your co-pilot can plan your route. The dash radio offers 30 programmable stations and Bluetooth™ connectivity so you can play music from your smartphone or tablet. At the end of the day, the fully-adjustable Primera covered cab seats swivel to face an already generous living area.
We hope you like making new friends because everyone at the campsite will want to check out your new Brave. So, grab a cold beverage and a comfortable lawn chair and enjoy the attention beneath the powered patio awning.
Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago’s® legendary SuperStructure® construction standards. It’s a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.
Visit BetterBuiltRVs.com to gain real insight into what goes into a Winnebago motorhome.

**TESTING** Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

**DETAILS** At Winnebago, we treat the features you can’t see with the same care as the ones you can. Look in the access panels of some of our competitors’ coaches and you’ll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

**BUILT IN-HOUSE** We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**TAKE A TOUR** We’re proud of our processes, state-of-the-art facilities, and the people who make Winnebago number one. We invite you to visit our complex in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motorhome we build.

NEW 26A

The flex sofa/bed can flip up against the wall for additional floor space and also features a powered table that flips up to provide a large work or serving surface.
NEW 27B

The U-shaped dinette sits in a generous slideout. It's a great place to enjoy a home-cooked meal and admire the retro styling.

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at GoWinnebagocom.
NEW 31C

The full-wall slideout allows for your choice of a king or queen bed, plus a full-size sofa bed facing a retractable HDTV.

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at GoWinnebago.com.

- 30,000 BTU low-profile ducted furnace (26A, 27B)
- 35,000 BTU low-profile ducted furnace (31C)

Electrical System
- AC/DC load center, 45-amp. converter/charger (26A, 27B)
- AC/DC electrical distribution system, 45-amp. converter/charger (31C)
- 30-amp. power cord (26A, 27B)
- 50-amp. power cord (31C)
- 4,000-watt Cummins Onan® MicroQuiet™ gas generator (26A, 27B)
- 5,500-watt Cummins Onan® Marquis Gold™ gas generator (31C)
- 2 deep-cycle, Group 24 batteries (26A, 27B)
- 3 deep-cycle, Group 31 batteries (31C)
- Chassis and coach battery disconnect systems
- Automatic dual-battery charge control
- Shoreline/generator automatic changeover switch (31C)
- 2,000-watt inverter/charger (31C)
- Automatic start system, generator (31C) (NA w/optional 2-door refrigerator/freezer)
- Auxiliary start circuit
- Exterior antenna jack and AC duplex receptacle

Plumbing System
- Permanent-mount LP tank
- On-demand water pump
- TrueLevel™ holding-tank monitoring system
- Winterization Package water heater bypass valve and siphon tube
- 6-gallon electric ignition/LP water heater
- Gravity water tank fill w/lockable door
- LPG accessory connection (patio area)
- City water hookup
- 10’ sewer hose

OPTIONAL EQUIPMENT
- Heated drainage system

Safety
- Child seat tether anchor
- LP, smoke, and carbon monoxide detectors
- 10 BC fire extinguisher
- Ground fault interrupter

Warranty
- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile limited warranty on structure
- 10-year limited parts-and-labor warranty on roof skin

FOOTNOTES
1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. Floorplans feature a wide-body design – over 96. In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96” in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
5. Capacities shown are tank manufacturer’s listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
6. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.
7. See separate chassis warranty.
8. See your dealer for complete warranty information.
Winnebago® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
