

The True 4x4 RV Opens Up a World of Possibilities

Designed specifically for active outdoor enthusiasts, the all-new Winnebago® Revel takes a no-nonsense approach to adventure with a straightforward design and function-driven features. Taking full advantage of the proven 4x4 Mercedes-Benz® Sprinter chassis, the Revel's 3-liter turbo-diesel puts 325 lbs./ft. of torque through an on-demand 4WD system, complete with high/low range and hill descent mode for added off-road capability. Inside, the Revel's unique features start with a floorplan designed around a Power Lift Bed

with a 140-cu. ft. gear garage below. A full galley, including a 2.5-cu. ft. refrigerator, makes meal prep a breeze, while the all-in-one wet bath and gear closet boasts a cassette-style toilet that eliminates the need for a separate black water holding tank. Add a standard solar power system, diesel-powered heating, a dinette with a pull-up table that converts to additional sleeping space, and many more innovative features and the result is the new Revel: quite simply the most off-road capable RV Winnebago has ever built.

44E

Storage and living space are maximized by the flared body and Power Lift Bed. Welded aluminum cabinet face frames, dual-pane windows with insulated shades, snap-in screens, and an available roof-mounted A/C system all contribute to the 44E's off-grid livability.

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
3. Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
4. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
