Notice from Management:

We would like to discuss our important features of Blue Haven Campground. The management will focus on these ideals of safety, health, operation, and development. With these ideals in mind, we shall discuss several options and mention all the current issues.

For example, the South Pool has been a topic of discussion for many campers. We understand the pool was a treat, but we now have to be honest about the pool's future. The South Pool is closed. The pool shall need expensive repairs. Not only the pool will need repairs, we have looked at other issues with the pool. When hot days come, the North Pool is usually crowded but not to the point of needing another pool. Most of the time, the North Pool is big enough to accept all visitors. Also another huge issue that was presented this year was the employment of lifeguards. We waited and asked several schools for lifeguards, and we just got some for the summer. We expect this issue to keep arising due to the expenses of becoming a lifeguard, CPR training, and finding people who want to work. Also, New York State and Clinton County Department of Health have several laws and regulations that we have to follow. These regulations have been easier to follow with one pool to watch than two. We want to serve the masses with options. Discussing these options will affect the campground for years to come.

Firstly, Wifi has been a constant discussion starter. We apologize for this issue, but we have also given this thought. If we remove the South Pool fix from our budget, we can get better Wifi. We have also noticed the amount of people standing in the sun during events or wanting to use the Wifi at the office. Our consideration is to build a pavilion. This way the pavilion could serve for free time and events. Also, we are considering updating the clubhouse. The updates and suggestions can be discussed with the management. The next idea for an update would be a sprinkler park for the kids, so they can run around and play in the water. This sprinkler system would be less regulation, less money to maintain, and less search for a lifeguard. Of course, the children will need their guardians there at all times. We have also considered adding another bathhouse. The bathhouse will take consideration on where it will be placed as we are open to suggestions.

With all these options in mind, we have considered new rules for the North Pool. We may put in place an "Adult time" for adults only to swim and enjoy the pool without children interfering with their relaxing swim. Thus, we can look at the North Pool being used fully and respectfully than having a second pool needed.

The final note shall be suggestions. We want your input as this is very important because we serve you. Please do not think that your voice is being denied. Speak up and let us know what you think.
