

## Available Coverage Plans

In the event of a breakdown,\* the **Classic Plus Coverage Plan** will pay or reimburse you for agreed costs to repair or replace any of the component groups listed below, less any deductible. Coverage below is just a sample of covered parts; additional parts may be covered. Coverage is subject to exclusions; please review a sample contract for complete details.

\* Mechanical breakdown is the failure of a covered part to perform the function for which it was designed, under normal services and usage, due solely to a defect in materials or workmanship as originally manufactured.

Plan	Covers component groups listed
Chassis and Coach	1-24
Wrap	3-24
Coach Only	11-24

### 1. Chassis Engine

Engine block and/or replaceable cylinder sleeves and cylinder heads if damaged as a result of an internally lubricated part failure; all internally lubricated parts contained within the engine block, including, but not limited to, valves, valve springs, valve guides, valve covers; pistons and pins; oil pump; oil pan; turbocharger and all internal parts; and diesel injectors and injector pump.

### 2. Transmission

Case if damaged as a result of an internally lubricated part failure; all internally lubricated parts within the transmission case including: torque converter; bands; clutches; gears; front pump; and oil pan.

### 3. Drive Axle

Drive axle housing if damaged as a result of an internally lubricated part failure; all internally lubricated parts within the drive axle housing, including: axle shafts, axle housing, universal joints, and constant velocity joints.

### 4. Engine Cooling

Water pump; radiator; cooling fan blades; fan clutch; hydraulic or electric fan motor; heater core; fan shroud; and coolant recovery tank.

### 5. Steering

Steering gear housing and all internally lubricated parts; control valve; steering cylinder; rack-and-pinion; and factory-installed steering stabilizer.

### 6. Fuel Delivery

Fuel pump; fuel tanks; fuel injection pump; fuel injectors; fuel pressure regulator; auxiliary fuel tank switch; and fuel lift pump.

### 7. Chassis Air Conditioning

Compressor; compressor clutch; clutch bearing; receiver/dryer; accumulator; condenser; idler pulley; field coil; and evaporator.

### 8. Electrical

Alternator; starter; starter drive; starter solenoid; voltage regulator; distributor; manually operated switches; ignition switch; windshield wiper motor; and washer pump; and dual battery paralleling switch.

### 9. Suspension

Upper and lower control arms; shafts and bushings; upper and lower ball joints; steering spindles and supports; leaf and coil springs; springs; shackles and bushings; and suspension air bags.

### 10. Brakes

Master cylinder; hydraulic or vacuum brake booster; wheel cylinders; calipers; combination valve; metal-only hydraulic tubing and metal fittings; ABS pressure modulator; treadle valve; and compensating valve.

### 11. Fresh/Waste Water System

Hot water tank; burner assembly; thermostat; thermocouple; gas valve; electronic ignition assembly; P.C. board; and diesel/electric heating system.

### 12. Kitchen Center

Range/oven burner assembly; burner valves; refrigerator/freezer; microwave; convection oven; thermostat; thermocouple; burner; and ignitor.

### 13. Roof or Basement Air-Conditioning

Compressor; evaporator; condenser; capacitors; relays; thermostat; heat strips; expansion valve; control module and panel; and reversing valve.

### 14. L.P. Gas System

Gas regulators; gas tanks; gas valves; tank gauges; L.P. fittings; emergency shut-off system; and gas leak detector.

### 15. Heating System

Furnace ignitor; burner assembly; gas valve; gas leak detector; thermostat; thermocouple; blower motor; and P.C. board.

### 16. Generator/Power Plant

All internally lubricated parts of the power plant engine; alternator; starter; manually operated switches; and voltage regulator.

### 17. High-Tech

Engine control module; camshaft and crankshaft position sensors; coolant temperature sensor; knock sensor; map sensor; mass airflow sensor; throttle position sensor; cooling fan control module; electric block heater; transmission control module; and dash-mounted instrument cluster and gauges.

### 18. Deluxe Appliances

Icemaker; trash compactor; dishwasher; built-in coffee maker; built-in food processor; in-sink disposal; and basement refrigerator/freezer.

### 19. Entertainment (factory/dealer-installed only)

Stereo receiver; tuner; compact disc player; DVD player; satellite system; and television(s).

### 20. Interior and Exterior (factory/dealer-installed only)

Hood latches and springs; door handles; latches and springs; door chimes; heated seats; seat tracks; and clock.

### 21. Leveling System

Factory-installed electric/hydraulic leveling jacks; and electrical switches and wiring harness.

### 22. Power Steps

Power step; fittings; cylinders; worm gears; electrical switches and wiring harness; and entry door motor and mechanism.

### 23. Slide-Out Rooms

Slide-out room motor(s); guides; tracks and hydraulic valves; sliding floor motor; pump/jack assembly; and electrical switches and wiring harness.

### 24. Seals and Gaskets

Seals and gaskets are covered for all listed components.
